**RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES
IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES**

December 31, 2019

Amounts reported for governmental activities in the statement of activities are different because:

Net changes in fund balances (deficit) - total governmental funds

-681,547

The net revenue (expense) of certain activities of the internal services fund is reported with governmental activities

930,158

The issuance of long-term debt (e.g. bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Additionally, various other long-term liabilities and deferred inflows do not require the use of current financial resources and, therefore are not reported as expenditures in governmental funds. This amount is the net effect of the differences in the treatment of long-term liabilities and deferred inflows on the statement of activities

352,028

The difference in the change in net position between full accrual accounting and modified accrual accounting is due to differing revenue recognition criteria between the two accounting methods

2,913

The difference in the change in net position between full accrual accounting and modified accrual accounting is due to differing expenditure recognition criteria between the two accounting methods

3,411,794

The net effect of various transactions involving capital assets, (i.e. purchases, disposals, etc.) is to increase net position
